

ATT CL2940 Batteries Replacement

This guide will help in replacing the batteries.

Written By: Charles Messmore

INTRODUCTION

If there is a problem with the power, one of the easiest solutions is to replace the batteries. Use this guide to assist with this.

Step 1 — Batteries

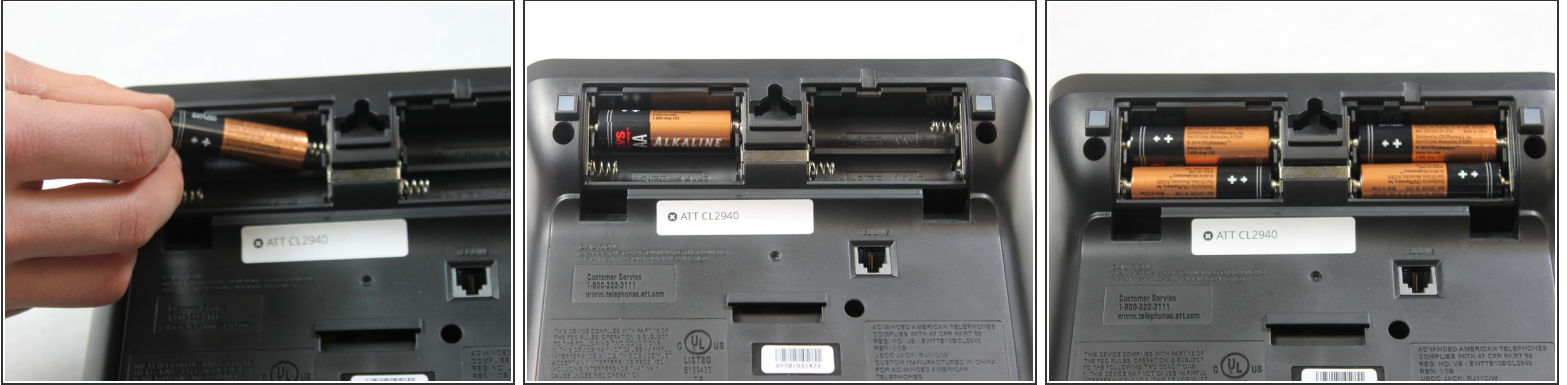

- Flip phone over

Step 2

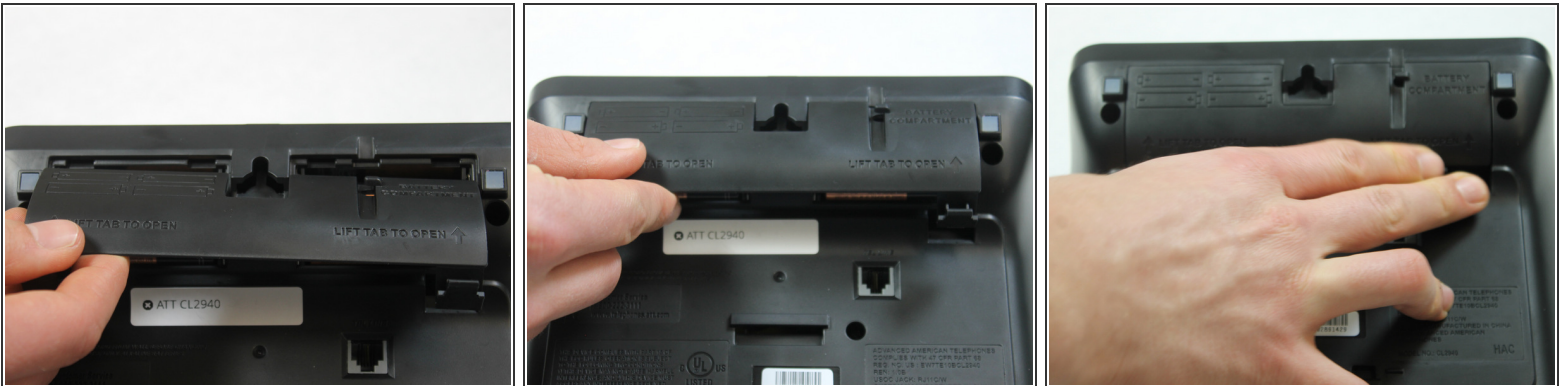

- Push tabs upward to release the Battery Cover

Step 3

- Place batteries in battery compartment with the positive end inserted at the side with the spring as shown.

Step 4

- Replace the Battery Cover
- i** You should hear a "click" sound when the Battery Cover is fixed in place.
